Hi Greer,

Thank you for the information and your file review. I look forward to our discussion tomorrow.

Hi Bob,

I made available information to the Closure Committee for the discussion tomorrow and wanted to pass it along as you won't have access to the files on our server. Although I believe it will be a duplicate of what we shared a while back when we last discussed the situation. However, it will be easier this way so you won't have to waste time searching for the information or making sure you have the same version, etc.

The attached email is what I sent to the committee and have attached those documents with the exception of the Information you supplied. I am still looking through information in various files

and if I find additional information for the discussion I will email it to you before the call.

If you have any questions please let me know.

Sincerely,

Greer Lundquist

Hi John,

We would very much like to participate in the discussion. Unfortunately, we have an all-hands meeting from 10 to noon, so we would need to have our discussion at the beginning of your meeting.

Please let us know if this will work or if we need to make other arrangements for a discussion.

Thank you,

Bob

Bob

Greer Lundquist has been reviewing the files for Tower Standard and other sites in the area. We will be discussing whether there is sufficient information to reopen the site with the Northern Region Closure Committee at their meeting on Thursday morning February 6th. We would welcome your participation if you are available. Let me know if you are interested and are available any time between 9:30 and noon.
